

EDUCATION

Sri Eshwar College of Engineering	B.E.(ECE)	CGPA: 7.89 (upto 5 th sem)	2023-2027
Srinivasa Vidhyala Matric Higher Secondary School	HSC	87%	2021-2023
Srinivasa Vidhyala Matric Higher Secondary School	SSLC	Pass	2020-2021

INTERSHIPS

Web Development - Propel Foundry [\[Certificate\]](#) 2025

Built a responsive React.js web application for a startup consulting firm, improving service visibility and user engagement. Implemented reusable UI components and optimized performance for faster page rendering. Collaborated using Git and GitHub workflows to deliver scalable features.

MERN Stack - Better Tomorrow [\[Certificate\]](#) 2025

Developed projects using the MERN stack (MongoDB, Express, React, Node.js). Designed and implemented APIs to connect frontend and backend seamlessly. Enhanced application performance, scalability, and maintainability. Used Git and GitHub for version control, collaboration, and project management.

PROJECTS

Kubernetes Observability & Monitoring System - Kubernetes, Docker, Minikube, Prometheus, Grafana, Node.js 2026

Built and deployed a containerized microservices application using Docker and Kubernetes. Implemented Node.js services with Prometheus metrics and Grafana dashboards for real-time monitoring. Debugged deployments, services, and networking issues using kubectl and logs. Automated deployment workflows and improved application observability.

PropelFoundry Website - HTML, CSS, JavaScript, React.js 2025

Developed a professional business website for a startup consulting firm, enhancing its online visibility and user engagement. Designed responsive UI and structured content to clearly present services like mentorship and startup support. Improved performance for a seamless user experience. Worked collaboratively to deliver a scalable and modern web solution.

AuraVue - Arduino, Pulse Sensor, GPS Module, Camera Module, Embedded C, React.js, Firebase 2025

Developed AuraVue, a wearable smart glasses system that monitors pulse rate from the neck, detects fainting or falls, and triggers emergency protocols. The device captures real time photos and GPS data when abnormal vitals are detected, with a calendar based React dashboard to view incident logs and live monitoring.

ACHIEVEMENTS

India Innovates	Ranked Top 1000 among 50,000+ innovators across India.
Freshathon	Secured 3rd place at the First-Year Student Project Expo.
Innohacks	Cleared 1 st round in hackathon at PSG college of Technology.
Hacksagon	Cleared 1 st round at ABV-IITM-IEEE(Gwalior).
LeetCode	Solved 400+ problems Contest Attended: 36 Profile
CodeChef	Secured Highest Rating of 1037 Profile
HackerRank	Achieved 1 stars in Java Silver Badge Profile
Skill Rack	Solved 630+ problems Received 1 certificate Profile

SKILLS

Programming	Java Javascript C (Basics)
Core	Data Structures and Algorithms OOPs
Web Development	MERN Stack React.js Node.js Express.js HTML CSS JavaScript
Backend & Databases	MongoDB SQL MySQL Firebase REST APIs
Devops & Cloud	Docker Kubernetes Prometheus Grafana Git GitHub Vercel Render Netlify
IDE & Platforms	VS Code Eclipse IntelliJ IDEA Google Colab
Tools	Canva Selenium LangChain Ollama Postman
